SOCIOLOGY

Methodology of Social Research

Course No.: SOCC - 201

(New/Old)

Time Allowed: 3 Hours

Maximum Marks: 80

Note: Section A consist of 8 long answer type questions. out of which the candidate will be required to answer 4 questions, one from each unit. Each question carries 12 marks.

(4×12)

Section B consist of 8 short answer type questions. out of which the candidate will be required to answer 4 questions, one from each unit. Each question carries 6 marks.

(4×6)

Section C consist of 8 objective type questions, the candidate will be required to answer all the questions. Each question carries 1 marks.

(8×1)

### SECTION-A

#### UNIT-I

1) Discuss in detail the concept of different methods and techniques used in social research.

(OR)

Explain in detail the different types of hypothesis in social research. Support your answer with examples.

#### UNIT-II

2) Explain in detail the importance of Questionnaire in Social Science research. How is it different from schedule?

(OR)

What is Interview? How is it important and explain different types of interview used in social science research.

#### UNIT-III

3) Discuss in detail the importance of Participant and Non participant Observation in research with suitable examples.

(OR)

What is Content Analysis? Discuss its importance and advantages in social research.

#### UNIT-IV

4) Discuss the advantages of tabulation and different types of tables used in the data analysis.

(OR)

What is Bibliography? Explain the importance of writing a bibliography in social research.

#### SECTION-B

##### UNIT-I

5) Briefly explain the theory building in qualitative research.

(OR)

Write a short note on Objectivity.

##### UNIT-II

6) Briefly explain the types of Research Design

(OR)

Write a short note on Probability Sampling

##### UNIT-III

7) Briefly explain the Case study method.

(OR)

Write a short note on Validity in qualitative research.

##### UNIT-IV

8) Write a short note on Interpretation and drawing Inferences.

(OR)

Discuss in brief the layout and the structure of the Research report.

#### SECTION C

1) \_\_\_\_\_ is defined as a set of systematically related propositions specifying causal relationship among variables.

a) Concept

b) Fact

- c) Theory
- d) Variable

2) The book 'Scientific social surveys and Research' has been authored by\_\_\_\_\_.

- a) Goode & Hatt
- b) P.V. Young
- c) Earl Babbie
- d) Sarantakos

3) The process which involves the development of generalisations from specific observations is called. <https://www.jktopper.com>

- a) Theory building
- b) Objectivity
- c) Induction
- d) Deduction

4) In which type of sampling, only the last sample of subject is studied?

- a) Cluster sampling
- b) Multi-stage sampling
- c) Random sampling
- d) Multi-phase sampling

5) Which scale has equal units of measurement which enables to interpret the distances between them.

- a) Nominal
- b) Ratio
- c) Interval
- d) Ordinal

6) Thomas and Znaniecki's study 'The Polish peasant' is famous for which of the following. Methods.

- a) Case study
- b) ratio
- c) Content analysis
- d) ordinal

7) Bi-variate tables are also known as \_\_\_\_\_ tables.

- a) Multi-variate
- b) contingency
- c) simple
- d) complex

8) The process of assigning numbers to the various categories of a variable is known as

- a) Editing
- b) Coding
- c) Tabulation
- d) Data Analysis
